Continuous Improvement Techniques

The content of this course has been mapped to the underpinning knowledge within the following unit on the Qualifications and Credit Framework (QCF): Contributing to the Application of Continuous Improvement Techniques (Kaizen): Level 2.

Successful manufacturing is based on three main elements: having the right product in the right place, at the right time, and at the right cost. This is achieved by having continuously improving quality assurance, cost management and delivery systems, often abbreviated to quality, cost and delivery (QCD).

This online training has been developed to provide learners with an understanding of the Kaizen philosophy, in order to encourage the setting and continuous improvement of standards which will improve productivity, safety and effectiveness while reducing waste.

By completing the online course will be able to:

- Understand the principles of Kaizen & Continuous improvement.
- Recognise the eight 'wastes.'
- Understand 'benchmarking.'
- Recognise improvement types.
- Understand the improvement cycle (PDCA).
- Recognise Key Performance Indicators (KPI's).
- Understand standard operating procedures (SOP's).
- Recognise the change environment.

This unit is a mandatory unit within the following qualification: Level 2 Certificate in Business Improvement Techniques (QCF).

Duration

Approximately 1 hour. The length of time taken depends entirely on how quickly you can study and absorb the material. You can proceed as quickly or slowly as you like, and there is no limit on how long you can take to do the course.
